# Gourmet Olive Oil Dispenser

[← Back](#)[↓ Download](#)

This decorative ceramic dispenser in the shape of a chicken protects olive oil from the light. The chicken's comb serves as a hermetic stopper which can be opened simply by twisting it. To prevent unattractive stains on table linen, the dispenser is equipped with an anti-drip system. The carafe references the manufacturer's iconic black and white stylistic idiom so that it harmonises with the existing product range.

## Statement by the Jury

The surprising closing mechanism of this olive oil dispenser is as engaging as its purist design which makes it a decorative addition to any table setting.
