## Premium Olive Oil Dispenser

### Olive oil bottle

[SOSO FACTORY, S.L.](#)

This gourmet olive oil dispenser is a compact, iconic product that playfully communicates with the user. It uses ceramic materials sourced from local producers in Andalusia, Spain. The design respects the refined culinary traditions of this region. An innovative stopper seals the bottle hermetically, ensuring that the aesthetics of the bottle are not interrupted. If it is turned fully, it can be removed, revealing an anti-drip and oil return system.

#### iF GOLD STATEMENT

With this cleverly crafted ceramic olive oil bottle, SoSo has finally answered the famous question about the chicken and the egg, coming up with a design that blurs the lines between product and packaging. This thoughtfully designed refillable table-top item has excellent ergonomics, useability, and re-useability.
